The WIDA-ACCESS Placement Test (WIDA-ACCESS Placement Test) is designed to assess English learners (ELs) and their proficiency in English. The test is used to determine the appropriate level of classroom placement for each student. The test is administered in 11 levels, from K-1 to 12, and is available in both paper and online formats. The test is designed to help educators make informed decisions about classroom placement and instructional strategies for each student. For more information on the WIDA-ACCESS Placement Test, please visit the WIDA website at www.wida.us/assessment/.
